Latest visuals show the terminal building, departure lounge, boarding areas, check-in gates, runway, ATC tower and aerobridges at Noida International Airport in Jewar. Poised for inauguration by the year-end and for launch of commercial operations in the first quarter of 2026, it will become Delhi-NCR's second international airport. Delayed by nearly a year, the airport will begin operations with only domestic flights since work on its international terminal is yet to be completed. NIA is likely to receive its aerodrome licence from Directorate General of Civil Aviation (DGCA) this week
